

CALL FOR PAPERS

'Humanitarian Technologies for Sustainable Development'

(A special session supported by IEEE HAC)

New technologies in this digital age offer a lot of hope to solve humanitarian challenges. We invite people who develop and implement technologies promoting human welfare and community development to submit papers in (not limited to) the following areas:

- Poverty alleviation, food security, nutrition
- Health and well-being, especially of mothers and children
- Disaster risk reduction and early response
- Educational technologies for achieving quality education for all
- Affordable, reliable and sustainable energy production and distribution
- Safe and resilient communities
- Combating climate change
- Sustainable water management
- Ethical and socially sustainable use of technology
- Sustainable Development Frameworks, UN SDGs and Assessing Social Impact

Paper submission guidelines

Authors are invited to submit full paper (Maximum 6 pages, double-column US letter size) as PDF using the IEEE templates. The submission can be done through the TENCON website www.tencon2019.org.
